and see what our customers say...

JHM Butt & Co. Ltd was founded in 1971 to supply quality tools and workshop equipment to the automotive industry.

Since 1971 we have dealt with many of the major groups of companies operating in the UK including:

- Kwik Fit
- Royal Mail
- British Telecom
- Halford Auto Centres
- Formula One Auto Centres
- G4S
- Vertu Motors

We are also pleased to deal with single outlet workshops and as a family owned business we bring our values of straight talking, value for money, common sense approach to projects and above all a complete commitment to do the very best for our customers to everyone who places their trust in our company.

In short we'll do the best for you everytime.

To find out more about what we can do to help your business please contact our sales team.

Planning & CAD

Site Survey

Rely on our experienced staff to deliver the workshop you require with the correct equipment for your individual application.

We will assist with on site meetings with your architects, builders and VOSA to make sure that your individual requirements and personal equipment preferences are met.

CAD Drawings

Using CAD we can work with your builders and architects to plan the workshop layout to provide optimal efficiency and compliance with the relevant regulations and requirements.

Drawings suitable for VOSA applications are part of our standard service.

Our experienced staff will **deliver** the workshop you **require**

Car & Light Commercial

Established in 1961, RAV are Europe's **largest manufacturer** of workshop equipment.

We will design you a workshop **to be proud of!**

With a range that includes:

- 2 & 4 Post Lifts
- In Floor Lifts
- Short & Long Platform Scissor Lifts
- Tyre Changers
- Wheel Balancers
- Computerised Wheel Alignment
- VOSA approved MOT equipment

RAV have a product for **almost every application.**

As one of their longest serving distributors in the UK you can rely on Butts to deliver and install a high quality workshop using RAV equipment that is both fit for purpose and reliable.

Workshop Equipment

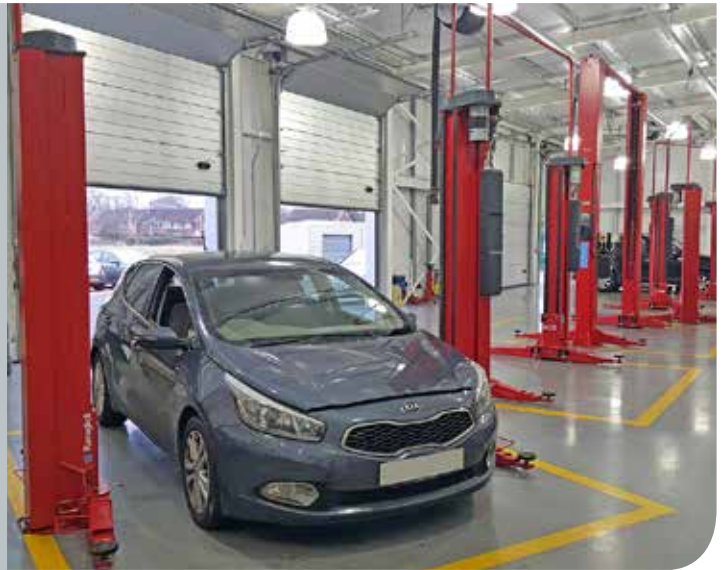

Fume & Dust Extraction

With a range of products including:

- Mobile
- Fixed Drop
- Articulated Arm
- Mechanical Reel
- Motorised Reel
- Rail System

Worky, an Italian manufacturing company, have an extraction system for every application.

For new, retro fit or refurbishment, Worky have the answer to your COSHH requirements.

Compressed Air & Lubrication Systems

Efficient delivery of compressed air, lubricants and disposal of waste oil and coolant are critical to the operation of any workshop.

With a range of suppliers including HPC, Butts are able to plan and install efficient, effective systems to ensure your workshop works to optimum efficiency.

All pipework is undertaken by trained staff who install only to GEA standard to ensure you have a reliable efficient system.

Commercial Vehicle

Ravaglioli manufacture a comprehensive range of equipment for commercial vehicle applications, including:

Lifting Equipment

- Electro hydraulic and electro mechanical mobile column lifts with capacities upto 10,000 kilo per column.
- Electro hydraulic and electro mechanical 4 post lifts with capacities upto 24,000 kilo.
- Electro hydraulic scissor lifts with platform lengths in excess of 18 metres and capacities of 55,000 kilo.

Thousands of
satisfied customers
nationwide

Workshop Equipment

From 4 post lifts, scissor lifts, mobile column lifts, play detectors and roller brake testers, we are able to accommodate all requirements from their range.

Wheel Care Products

- Motorised Wheel Balancers.
- Conventional and leverless tyre changers including van mounted models.
- Computerised Wheel Alignment Equipment.

Testing Equipment

- ATF, MOT5 Approved Roller Brake Tester.
- Pit or lift mounted Play Detectors.

Project Management

Undertaking a refurbishment or new build is stressful enough for anyone, rely on our staff to deal with your builder, other contractors & architect to deliver your workshop, as planned on time.

We are a 'Safe Certified' Contractor so you can rely on us to deal correctly with Health & Safety and other site issues.

Project Engineers

Our in house engineers are factory trained, GEA certificated and experienced.

They will deliver your project on time and hassle free.

We will deliver your project **on time** and **hassle free**

Workshop Furniture

Invest in a workshop
to be **proud** of!

When designing a new or refurbished workshop consideration should be given to the correct storage of tools and small equipment which can tend to clutter a workshop unless it has it's own place.

Worky manufacture a range of superb workshop furniture designed to keep all your precious special tools and mechanics tools in a secure environment.

Worky furniture will increase efficiency because your staff will not be wandering around looking for tools and improve the image of your company.

For further information and a 3D CAD drawing of your workshop with Worky furniture in place contact our sales team today.

WORKY

Calibration, Service & Repair

All machinery needs to be serviced and maintained

Protect your investment by taking out a service contract on your workshop equipment.

With 1000s of spare parts in stock in our warehouse, our own GEA Accredited engineers, a computerised service reminder and inspection records system, we are able to service, calibrate and repair most types of workshop equipment.

Contact our sales team for a no obligation quotation.

We can **repair** most types of workshop equipment
