## Instructions

Ensure the lamp is fully charged before initial use.

Always point the lamp away from your eyes when turning on.

Press the power button to turn on the lamp. If the lamp does not power on immediately please recharge.

The lamp can be suspended when in use using either of the rotating hooks giving optimum viewing.

Always power off the lamp when not in use.

**Spares are Available for this lamp - please call your local distributor with your requirements.**

## Safety

Never point the lamp in your own or any other persons eyes.

Never attempt to use the lamp if it appears to be damaged or have battery damage.

Never turn on the lamp when it is on charge - this could cause damage.

Only use the power supplies provided, never attempt to charge the lamp using any other charger.

Do Not attempt to take the lamp or charger apart.

It is the users responsibility to read and understand all instructions provided.

The Electricity At Work Act 1989 requires all portable electrical appliances, if used on business premises, to be tested by a qualified electrician, using a Portable Appliance Tester (PAT), at least once a year.

## WEEE Regulations

This lamp is to be disposed of at the end of its lifecycle in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the lamp has reached the end of its lifecycle and is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.
